## RETIRED STATE FIRE MARSHAL KILLED BY CAR

J. William Morgan, 87-year-old retired state fire marshal, and well known in Gettysburg and Adams county, was killed instantly Thursday morning when he was struck by a car as he crossed the Gettysburg pike near Dillsburg to mail a letter. The fatal accident took place one and one-fourth miles north of Dillsburg in front of Mr. Morgan's home.

The aged fire marshal suffered compound fractures of both legs, a fractured skull and a broken neck. York County Coroner Lester Sell released the body to the Klugh funeral home in Dillsburg.

State police said the car that struck Mr. Morgan was operated by Clair Gettys, of Dillsburg, who was en route to work in Mechanicsburg.

**Aided Local Firemen**  
Mr. Morgan was known to nearly every fireman in Adams county and to many other residents. In 1913, upon the occasion of the 50th anniversary of the Battle of Gettysburg he was sent here by the state to take charge of the fire fighting units during the celebration. He brought a fire engine, drawn by two horses, and set up headquarters in the local fire engine house. His equipment belonged to the Royal Fire company, of Harrisburg.

Every water plug in Gettysburg was numbered by Mr. Morgan and then he distributed printed cards to every household with instructions as to which plug was to be used in event of a fire.

In 1922 when James B. Aumen was elected chief of the local department Mr. Morgan, then state fire marshal, came to Gettysburg and assisted Mr. Aumen in removing and correcting fire hazards throughout the town. He was also present when the Adams County Firemen's Association was organized and attended and spoke at every annual meeting of that organization until this year when infirmities of age prevented his attending. On frequent occasions he attended other firemen's meetings here and in the county and often spent several days' vacation at the local firemen's retreat.

He was a social member of the local lodge of Eagles and was an honorary member of the Adams County Firemen's Association and the Gettysburg Fire company.

The deceased was a past president of the Firemen's Association of Pennsylvania and a past president of the Southeastern Firemen's Association.

Funeral services will be held Monday afternoon at 2:30 o'clock from the home of his brother John Morgan, in Harrisburg. Burial will be in Woodland cemetery, Philadelphia.

The body may be viewed Sunday evening from 7 until 9 o'clock at the Fisher funeral home, 1334 North Second street, Harrisburg.

## No Solution Yet In Mystery About Cracked Windows

Fire Chief James A. Aumen, who operates the Blue Parrot tea room, has a mystery on his hands. He's had two sets of answers thus far. The mystery has cost him more than \$200 in cracked windows in the front of the Blue Parrot, in the past five weeks.

About five weeks ago one of the large plate glass windows suddenly, without warning and for apparently no good reason at all, cracked. A week ago another one did the same thing. Then came the third case of the cracking window, and Aumen still doesn't know what "makes 'em bust."

Window glass experts in York, consulted in the matter, blamed the cracking on the fact that the lower parts of the windows are painted. Local painters, however, scoff at the idea, Aumen says. Charles T. Ziegler, former operator of the Blue Parrot, said, according to Aumen, that he didn't have any cracked windows in 15 years of operation.

No one heaved a brick at the windows, and no one was near enough to them to have anything to do with the cracking, according to Aumen, although all three occasions were in the daytime when there were persons about the premises.

## WILL TELL OF ATOM BOMBING OF HIROSHIMA

The Rev. Dr. Takuo Matsumoto, one of the hero-victims of the dropping of the first atomic bomb on the Japanese city of Hiroshima, will be the guest-speaker at Methodist-Presbyterian Sunday Evening Hour in the Presbyterian church Sunday at 7:30 o'clock.

Dr. Matsumoto was then, and still is, the principal of the famed Methodist Girls' school in Hiroshima. That one bomb, the survey afterward showed, killed outright 350 girls of the school, while other hundreds were maimed and injured; 149 girls lost their fathers, 144 lost their mothers, and many others lost brothers, sisters and other relatives. In the confusion that followed Mrs. Matsumoto was drowned.

**Was Badly Burned**  
Dr. Matsumoto himself was badly burned, and suffered the after-effects of atomic rays. He was hospitalized for more than a year, his life despaired of for a time, but he has recovered much of his strength, and is already at work rebuilding the Methodist Girls' school. In temporary buildings it houses 1,600 girls, and the rush for enrollment is an embarrassment to the school authorities.

Dr. Matsumoto was brought to the United States by the Methodist church chiefly for recuperation. However, he is also speaking in the interests of Christian education in Japan. He is a graduate of Ohio Wesleyan university, of Drew Theological seminary, and a former fellow of Union Theological seminary, New York city. For many years he was professor of New Testament at Aoyama Gakuin's theological department in Tokyo, Japan; later vice president of Chosen Christian college, in Seoul, Korea; and more recently in Hiroshima. He is the author of many religious books, and the translator of many other Christian books from the English tongue. He is a minister of the Methodist church of Japan.

## Musselman Memorial Gymnasium At Biglerville High School To Be Dedicated Thursday Evening

One of the largest high school basketball floors in southern Pennsylvania will be dedicated in Biglerville next Thursday evening at 7:30 o'clock, when the keys and title to the new Musselman Memorial gymnasium are turned over to representatives of the Upper Adams School board, governing body of the joint school district's Biglerville high school.

The new structure, which will also house physical education classes of the junior and senior high schools, is a gift to the district of the late Christian H. Musselman, pioneer fruit processor of the upper Adams community. This last in a series of benefactions to the Biglerville school was authorized and planned by Mr. Musselman just prior to his death in 1944.

**Folding Bleachers**  
The playing floor to be used for high school basketball games measures 42 by 90 feet. Folding bleachers ranged along the walls will seat 1,000 students and spectators when all sections are extended.

An electric score board and time-keeper's stop-clock, actuated by remote control, will keep basketball fans abreast of the play as all future home games are played on the new floor.

An eight-ton folding door, electrically operated, can be closed to divide the playing floor into two regulation basketball courts. This will permit both boys' and girls' gym classes holding simultaneous sessions in the separated areas.

**Special Basement Rooms**  
The basement of the building is divided into two complete and independent locker, dressing room and shower units, one for girls and the other for boys, with inside access to each from one of the two separated playing floors. A large basement room is also being furnished for wrestling and corrective physical education instruction.

Men and women in charge of the coaching and physical education programs are provided with private rooms in the basement, each is

## Communists Demand China Abrogate Treaties With U.S.

Shanghai, Jan. 14 (AP)—Mao Tse-tung, Chinese Communist leader, today demanded abrogation of treaties between China and the United States as one of eight prerequisites of peace.

The Red leader, in a Chinese language broadcast heard here, also demanded trial of "war criminals," presumably to follow any peace move from the government and army.

Mao, accusing Chiang Kai-shek of warring against the Communists because he was lured by the glitter of American weapons, called upon the Nationalist leader to show the sincerity of his desire for peace by accepting Mao's conditions.

Mao said China was depending on United States support against the people's will. He added that Red soldiers will liberate them.

Eight peace conditions (which may be modified by an English language broadcast) were given:

## \$800,000 NOW SUBSCRIBED FOR PENMARVA UNIT

The PenMarVa Packing cooperative made up of fruit growers of four states today revealed that more than \$800,000 has already been subscribed of the \$3,000,000 worth of stock the fruit growers are planning to sell.

At the same time, encouraged by the manner in which subscriptions for stock are being sold, the cooperative group has also taken an option to purchase the apple juice processing plant at Scotland organized and operated since 1946 by the Chambersburg Fruit Cooperative Association, Inc.

The PenMarVa, which is scheduled for incorporation in the near future under the Pennsylvania Cooperative act of 1929, if it exercises all of the options it now holds, will purchase the Peach Glen and the Chambersburg plants of the National Fruit Product Corporation, the Orrtanna Canning company and the Scotland plant.

**Huge Capacity**  
R. C. MacDonald, Shippensburg R. 2, president of the Chambersburg Fruit Cooperative and a member of the executive committee of growers proceeding with plans to incorporate the PenMarVa cooperative, said that the plans of the new organization were extended to include the Scotland plant to make certain there would not be two cooperatives in this area competing against each other.

Because most of the sponsors of the Scotland plant also plan to participate, financially, in the PenMarVa cooperative, transfer of the plant and its property from one cooperative to the other will have little effect in the operation of the plant, MacDonald said.

The cooperative is offering to fruit growers only non-interest bearing common stock totalling \$500,000, while five per cent cumulative interest preferred stock in the sum of \$2,500,000 is being offered to the general public. The stock is being issued in shares of \$100 par value. Of the \$3,000,000 to be raised, \$2,000,000 will be used for the purchase of the four plants and \$1,000,000 will provide operating capital for the cooperative.

The four plants, M. E. Knouse, of the executive committee pointed out, have a capacity for 2,500,000 bushels of apples, 800 acres of tomatoes, 2,000 tons of cherries and room for a peach line.

In addition to the formal presentation and acceptance ceremonies, the uniformed Biglerville high school band will play and the mixed chorus will sing. Following dedication the audience will be invited to inspect the entire building.

## WILL SUSPEND PICK-UP AIR MAIL SERVICE

Postmaster Lawrence E. Oyler said today he has received no word on the date for suspension of the air mail pick-up service here.

Gettysburg is not included in plans for All-American Aviation passenger-mail service so that with the suspension of the pick-up route Gettysburg will be without direct air mail service.

Washington, Jan. 14 (AP)—The flying mail man familiar to 121 eastern communities will fold his wings soon, making way for full scale air service to the larger cities in the same area.

Suspension of the 10-year-old experiment in air pick-up service was announced by the Civil Aeronautics Board yesterday. The board issued a three-year certificate to All American Airways, Inc., for passenger-mail-cargo service to more than 40 cities in seven states with the provision that pick-up flying be suspended as the new service begins.

**Started in 1939**  
Air mail pick-up service was begun in May, 1939, as an experiment in fast communications linking communities too small ever to support regular airline operations. Many of the pick-up points have no airport.

The decision to end the experiment was attributed to rising costs and the limitations of flying only in daylight on pick-up routes. The post office, supporting suspension, said that in many cases air mail was delayed by present scheduling.

Mail payments to All American rose to \$963,443 in the fiscal year ended June 30, 1947. They amounted to \$487,468 in the next six months, a sum equal to 14.5 cents for every letter picked up.

**To Serve Larger Cities**  
The service has operated with single-engine planes carrying a retractable 15-foot arm from which was suspended a hook attached to a rope. The hook engaged a loop attached to the mail pouch on the ground and the bag was reeled in. Mail was delivered simply by tossing out the pouch.

The operating authority given All American provides for passenger-mail-cargo service on six routes. They extend from Washington to Baltimore; Washington to Atlantic City; Pittsburgh to Buffalo; Pittsburgh to Cincinnati, and Washington to Wilmington, Del.

All American is moving its headquarters from Wilmington to Washington National airport. It has bought nine 24-passenger DC-3 planes and hopes to begin service to some points in mid-February.

**Taxes And Licenses**  
State gasoline taxes and license fees paid for the 2,772 trucks in the county amounted to \$233,096 in 1947, while special federal taxes boosted the total to more than \$283,948.

"One out of every three highway dollars in Pennsylvania is paid by the trucking industry," the report declares.

"Trucking in Pennsylvania represents a most essential transportation system and its growth and stability has been due to the service delivered," W. F. Crossett, president, Pennsylvania Motor Truck Association, stated today.

## GERMAN GIRL, 9, WRITES THANKS FOR HER GIFTS

Nine-year-old Doris Wagner of Germany is rapidly becoming one of America's best friends through the generosity of Mrs. Mae Cool, Gettysburg R. 1.

Mrs. Cool, who points, out that her belief is "you can catch more flies with sugar than with vinegar," started out her one woman attempt to help bring the Germans into the community of friendly nations by securing the name of a youngster in Germany through the local schools. Picking out a youngster, Doris Wagner, she sent her a big box filled with soap, toothpaste, toys, wash rags and the like, with the hope that by showing friendship she would be able to convince at least one German youngster that Americans are friends rather than enemies.

"It is the least one can do to help the cause of future peace," she points out, "besides, I love children." As the local woman figures it, the older people in Germany, embittered by the loss of the war, may teach their children to hate America. She feels such things as these gifts will help the children to see both sides of the question.

**Two Letters of Thanks**  
From Doris, Mrs. Cool has received two letters, both written in English by Doris' 13-year-old brother who is studying English. The letter sent January 5 thanking Mrs. Cool for her Christmas package is decorated with a well drawn duckling which Doris drew with crayons that were in the box.

"Just on Christmas-Day I got your gift-parcel over which I was very glad," Doris wrote in her letter, "I thank you heartily for it, also for the kindly greetings to the festival. I was very surprised over the parcel, chiefly that it was possible for you to pack so many nice little things in it. Over the little book for drawing and the colors I have been very proud. The clothes and the other many, many things made me very happy, too. All the things I can use very good. . . . With the cocoa my mother made a good drink, for this we could never get for some years. The chocolate and the sweets I gave to my brothers and sisters. All tasted more than good. For all your kindness I never can thank you enough. Many presents for other people I couldn't get this year. For my father has died and all things costs very much, we cannot buy a lot of things. Your parcel was the largest and best gift of all. For all that I have spent very nice days. I'm sorry there was no snow and therefore I was not able to ride on my toboggan. So I was at home and played with my dolls and painted with your colors. . . . Now I will finish my letter and thank you once more for all your kindness and for all the joy you have given to me by the gift-parcel. I remain in love ever your little grateful Doris."

## ANTI-TRUST SUIT NAMES A.T. & T.

Washington, Jan. 14 (AP)—The Justice Department filed suit today to divorce the American Telephone and Telegraph company and Western Electric corporation.

Western Electric is the manufacturing subsidiary of A. T. & T.

Attorney General Tom Clark announced that the action, in the form of a civil anti-trust complaint, was filed this morning in federal district court at Newark, N. J.

It charges A. T. & T. and Western Electric, which is a wholly-owned subsidiary, with "conspiracy to monopolize" the telephone business in the United States.

Clark said he is asking that A. T. & T. be required to dispose of all its holdings in Western Electric, and that the latter be dissolved and reorganized into three separate competing manufacturing concerns.

In addition, the attorney general requested court orders to require both companies to make their numerous patents in the telephone field available to any person or company desiring to use them on a "reasonable royalty basis" and to supply such persons or companies with the "know-how" for their use.

Western Electric is the principal American manufacturer of telephone equipment, just as A. T. & T. is dominant in the telephone service field.

Washington, Jan. 14 (AP)—Senator Pepper (Pa.) said today that he and "a great many other Democrats" want the Senate labor committee to skip hearings on legislation to repeal the Taft-Hartley Law.

Pepper told a reporter he took the lead in pressing that point in the committee yesterday. He said Senator Taft (Ohio) and the Republican members generally opposed the idea. A decision was put off until next Tuesday.

### MARKET UNSETTLED

New York, Jan. 14 (AP)—Weakness in American Telephone stock unsettled the entire market today. A T & T dropped 1½ points to a low since 1943 almost immediately after news that the Department of Justice had filed a monopoly suit against the concern. **Assails VA Cut-back**

**In Hospital Program**

Washington, Jan. 14 (AP)—Representative Fenton (R-Pa.) has told the Veterans Administration that its cut-back in the hospital program for Pennsylvania is "absolutely unjustified."

Fenton said in a letter to Major Gen. Carl R. Gray, Jr., veterans administrator, that he agrees "wholeheartedly" with Pennsylvania members of the American Legion who have protested the Veterans Administration's action. This would eliminate one hospital at Harrisburg and reduce the number of beds in proposed hospitals at Pittsburgh and Philadelphia.

In reply to a telegram from Lawrence Trainor, Pennsylvania department commander of the Legion, asking for action, Fenton told Trainor in a letter "I am pleased to advise you that I have already protested this matter and will continue

## BANG'S DISEASE CONTROL ASKED

Harrisburg, Jan. 14 (AP)—State farm interests today urged wider supervision of public sales of livestock as a means of reducing the spread of Bang's disease in Pennsylvania.

The proposal is included in a 17-point program prepared by statewide livestock groups, aimed at streamlining and modernizing the commonwealth's bang's disease controls.

Bang's disease is an ailment of cattle which is believed to cause undulant fever in human beings who drink milk or eat meat from diseased cattle.

The new plan, outlined by dairy and beef cattle farmers at a meeting here yesterday, recommends that livestock untested for bang's disease be segregated from tested cattle at public sales. The pens containing untested animals would be required to be clearly labeled.

J. Lewis Williams, of Uniontown, president of the Pennsylvania Dairy-men's association, said the regulation would lessen the chances of farmer buying diseased cattle at the public sales.

Williams said livestock groups will work with the state Agriculture department and the state Legislature in an effort to secure enactment of the 17-point program.

## Remove Pencil From Boy's Heart Lining

Denver, Jan. 14 (AP)—Surgeons successfully removed an automatic pencil from the lining of 13-year-old Robert Bradshaw's heart last night.

The doctors said a fraction of an inch was the difference between life and death for the youth. He fell on the pencil yesterday while running on the Byers Junior high school playground. The point caused a minute scratch on his heart but there was no damage to it.

The pencil palpitated in his chest with every heart beat until it was removed in a lengthy operation.

## CONFER TODAY ON EAGLES SALE

Philadelphia, Jan. 14 (AP)—James B. Clark, Philadelphia trucking company head, said he and other members of a syndicate will meet today with representatives of the Philadelphia Eagles in an attempt to buy the National Football league club for \$250,000.

The Washington Times-Herald published a story today saying the NFL champion Eagles had been sold to a syndicate headed by Clark.

Clark said his syndicate is made up of 75 businessmen but eventually may have a total of 100 members.

John B. Kelly, former U. S. Olympic rowing star, who had been rumored a member of the syndicate, said at his home here today that he had been asked to join the group but said he wanted more time to consider the offer.

The Eagles won the NFL championship in 1948, defeating the Chicago Cardinals in the playoff game at Philadelphia last month. Despite the success of the team, owner Alexis Thompson said he lost \$20,000 on the team last season.

## Sports Roundup

By HUGH FULLERTON, JR.

New York, Jan. 14 (AP)—It's a long stride (any way you look at it) from the Harvard Club to the swank saloon where the boxing writers held their annual dinner. . . . But in each place you found an old-timer who had found it more interesting to look ahead than to look back. . . . At the Harvard Club it was Hamilton Fish, All-American tackle of 1908-1909, who had helped compile a monumental "History of Football at Harvard." The book is filled with reminiscences and so were most of those who were introduced to the public. . . . Fish preferred to call it a means of recruiting players without going beyond the NCAA Sanitary code. "We think Harvard is the best college in the world, so why shouldn't we try to get boys to go there?" he demanded. "Thirteen boys on the Columbia football squad that played Harvard last fall came from within 50 miles of Harvard stadium. I've suggested several ways of interesting New England boys, but Harvard is too conservative and self-satisfied to do anything." . . . At the boxing jamboree, 75-year-old dumb Dan Morgan had the boys rolling on the floor with laughter throughout an hour-long speech accepting the James J. Walker Memorial award. . . . It's impossible to reproduce a Morgan oration, but his principal theme was: "Boxing isn't dead. There's more fighting material around now than ever. Let's just get out and hustle."

**ANOTHER CONTRAST**

In a less serious mood, Fish explained: "There probably is no one who knows less about football than my wife. Someone once asked her, 'What position did your husband play at Harvard?' She thought it over a minute and exclaimed, 'Oh, I remember now. He played captain.' . . . Perhaps the best of dumb Dan's yarns concerned a visit to Jack Johnson when the former heavyweight champion was working in a 42nd street flea circus. 'I asked him, 'Aren't you handling any heavyweights?' Morgan related. 'Jack just pointed at the fleas and said, 'They're better thinkers.'"

**HELL COME TO A BAD END**

Joe Sherman reports that the Florida State Prison farm at Railroad held an end-of-season football banquet for its team—just like other institutions of higher learning. . . . The prisoner M.C. cracked: "The only really uncomfortable player on the team this year was the center—he had to play between two guards."

## Today's Talk

### INCEPTION SUCCESS

All beginnings are important because they have in them the germs of one's dreams and hopes. It is then that one needs great faith, determination, and the will to go on. Too many lose out in the first attempt for lack of self-confidence.

The story is told of a man who went to Goethe for advice about an undertaking, but who mistrusted his ability to put it through. The great writer looked him in the eye and said: "Ach! You need only blow on your hands!" No one can expect to go forward with cold hands or cold feet. There must be the warmth of enthusiasm, which warms the heart.

It's the early attempts that hold the key to all later success. Modestly begun, there is so much to inspire one to go further. Each advance is an accumulation of knowledge and valuable experience. And this experience is often worth more than any money capital. As we grow we learn.

One idea leads to another until one small idea gathers a multitude of other ideas that finally result in a big idea, like Mr. Henry Ford's first automobile, for example, or the first crystal radio sets that now have inspired the birth of television. We can only imagine what will come next. Let us hope and pray it will be something that will bring universal peace, without killing people to gain it!

An encouraging word has often changed the whole course of a life. Perhaps it may have been given only to your shoe-shine boy, or to your barber or office boy. A train of thought gets its inception. Something is stimulated in the mind or heart—and a new success is on its way!

I once advertised for an office boy, and an Italian boy came to see me. I engaged another, who was not satisfactory. I advertised again. That Italian boy showed up again. His sincerity and earnestness attracted me. I engaged him. Now, after over thirty years, he has been my friend and associate—and very often my best adviser.

Tomorrow Mr. Adams will talk on the subject: "Onward With Faith"

Upon the phone and break my slumber,

## NEW RECORD ON ATTENDANCE IS SET BY SHOW

By LEONARD A. UNGER  
Harrisburg, Jan. 14 (AP) — A Lancaster county farm youth and his grand champion 4-H baby beef steer parted company at the 1949 state Farm Show today.

Seventeen-year-old Jay Nissley, Manheim R. D. 3, reluctantly placed "Midnight," his prize 1,085-pound Aberdeen-Angus steer, on the auction block.

"He's been a pretty good pal of mine — I hate to lose him," said the Manheim high senior. Nissley's coal-black steer took top honors from among 140 4-H baby beef entrants yesterday.

**Closes At 6 P. M.**  
The sale of the Blue Ribbon baby beees and lambs reared by 4-H boys and girls throughout the commonwealth ends the Farm Show. An anticipated crowd of nearly 600,000 persons will have passed through the portals of the huge 14-acre Farm Show building before the 6 p. m. closing.

The previous attendance record is 545,000, set in the first post-war renewal of the agrarian classic two years ago.

Visitors flocked to the stalls of the prize-winning livestock — and "Midnight" was a favorite. The steer is the first ever raised by Nissley. He purchased the animal in November of 1947 at a price of 28 cents for each of its 475 pounds.

**Other Finalists**  
"He handled very nicely and I'm proud of him," the farm boy said shortly after the award. "He's a good animal and I knew for sure he wouldn't come in on the tail-end."

Ray Buss, 16-year-old Easton R. D. 6 farm boy, nearly succeeded in repeating his 1948 grand championship honors. His Aberdeen-Angus, "Peanuts," finished in the reserve grand champion runner-up spot.

Other finalists were Peggy Foreman, 20, Carlisle R. D. 6, and Elvin Yeagley, 18, Elizabethtown R. D. 3, showing Herefords, and William Endsow, 20, Marietta, and Paul Runkle, Felton, York county, displaying Shorthorns.

**New Record Price**  
But before Auctioneer Guy L. Pettit, Bloomfield, Iowa, swung to the 4-H sales, he managed to knock down Duroc Jersey hogs for the highest prices among all the swine breeds.

"Flashy Lady," first in her class but edged out for championship honors, was sold for \$350 a hundredweight to Scieven Louillard, Fair Hills, N. Y.

The price was \$20 better than her full sister, "Dream Girl," the champion. She was sold to R. Bruce Fike and Sons, Uniontown. The reserve champion, "Nancy," went for \$260 to Ed Carpenter, Winchester, Va.

**20 Inches In 20 Seconds**  
All three were consigned to Waldo Barron, Slippery Rock. The sale averaged \$163.

The log-sawing and horseshoe-pitching contests highlighted last night's final evening events in the large arena.

## SAYS POWER IS ONLY MEANS TO ENFORCE PEACE

By DEWITT MACKENZIE  
(AP Foreign Affairs Analyst)

Our column yesterday made the point that Russia isn't ready for war now, but would make war whenever she was ready and thought it would further her aims.

We added that what the Democracies have to do is pursue their present strategy of intensive preparedness—and hold the line.

That brought me a telephone call in New York from Sigrid Arne, one of the Star members of the AP Washington staff. She gave me a kindly nod on my thesis and then suggested this corollary:

"We aren't a war-making crowd, but the Russians are. We are in a time-race. We've got to get the drop on them now. And we must keep that advantage—for maybe a hundred years."

**Great Moment in History**  
So let's pursue her general line of thought:

As I pointed out yesterday, the western strength is too great now for Russia to tackle. Both sides in the "cold" conflict are building strength as speedily as is feasible. The Democracies are building defensively—the Russians defensively, but also offensively.

Each side recognizes that it must work fast in order to keep pace with

the other. This is one of the great moments of history.

**Power Can Maintain Peace**

Since the Muscovites are bent on conquest by aggression, it is up to the western powers to maintain the peace. How can that be done? Only by holding a solid balance of power. Russia mustn't be allowed to outstrip the west in building up strength.

Sigrid Arne's remark that the west must maintain the advantage for maybe a century grew out of the role Britain played from about 1815 to the outbreak of World War I in 1914—a hundred years. During those 10 decades England's huge Navy made her mistress of the seven seas. None dared challenge that might. The result was that general peace was maintained. There were isolated wars, to be sure, but no global upheaval such as has afflicted us twice in the past generation.

**We'll All Be Involved**  
In short, America is maintaining the balance of power on the side of peace.

Fortunately the U. S. A. recognizes that this involves more than the power of mind over matter. You can't enforce peace merely by thinking beautiful, peaceful thoughts. You've got to carry a gun and be prepared to use it these days.

That's distasteful, but it is a fact. Maintenance of the balance of power on the side of peace is terribly costly. It's tough on the average fellow's pocketbook, but it's a mighty sight better than marching into battle.

The next world war will involve all of us actively—sons, fathers and granddads.

## Emmitsburg

Emmitsburg—Mrs. Henry Gerken spent Tuesday in Baltimore and Westminster.

Mrs. Clarence Wachter returned home after visiting several days with her parents, Mr. and Mrs. C. A. Geesman, Reading. Her father is ill at his home.

Miss Anne Eckenrode returned to New Orleans on Wednesday after spending two weeks with her father, Prof. B. J. Eckenrode, and Mrs. Eckenrode.

A special meeting of the past officers, present officers and consultants of the Sodality of the Blessed Virgin of St. Joseph's church was held Tuesday evening at the home of the newly inducted president, Mrs. J. Lewis Topper. It was decided to hold a food sale at the firemen's hall on Saturday, January 29, beginning at 11 o'clock. Homemade bread and rolls, cakes, pies, candy, sandwiches and soups and other articles will be on sale. Plans for a card party were discussed. It was decided to hold the card party on Thursday evening, February 24, in St. Joseph's high school auditorium. It was also decided that each consultant or a member of her band sponsor the evening of games held the third Thursday of each month. The next evening of games will be held on Thursday, January 21, at the home of Miss Anne Codori. Refreshments were served.

Mr. and Mrs. Herbert White and family visited Sunday with Mr. and Mrs. Marvin Miller and son, Littlestown.

## FARM SHOW SIDELIGHTS

Harrisburg, Jan. 14 (AP)—A 20-year-old Centre county farm youth will auction off his own lambs at the 1949 State Farm Show today.

James Haagen, 20 Centre Hall, obtained permission from the Farm Show commission to do the chore. He wants to follow through with a recent course he took at an auctioneering school.

One of his instructors was fast-talking Guy L. Pettit, Bloomfield, Iowa, auctioneer at the Pennsylvania show for years.

The Pennsylvania Dairymen's association is submitting proposals to

abolish the state Milk Control commission.

The association passed a resolution at a meeting yesterday declaring the agency has been "a great factor in stabilizing the milk industry in the state, benefiting the producer as well as the consumer."

Young world war two veterans banded together to organize the Young Farmers association of Pennsylvania.

Sixty-six delegates, claiming to represent 6,600 veterans enrolled in a state agricultural training program sponsored by the State Department of Public Instruction, formed the organization.

The new association said its purposes are "to encourage rural leadership, agricultural education, desirable agricultural legislation and better citizenship."

Roy Schlosser, Conneautville, Crawford county, was named chairman. Other officers are J. W. Yordy, Lebanon, secretary; and Albert Wineland, Johnstown, treasurer.

The Pennsylvania Flying Farmers association took in a demonstration on the use of hedge-hopping airplanes to wipe out bothersome plant insects and diseases.

William L. Anderson, executive secretary of the Pennsylvania Aeronautics commission, directed the bug-killing flights which used both liquid sprays and dusts at low altitudes.

Improving marketing methods and regular use of timely marketing and economic information will be important mainstays for Pennsylvania vegetable growers in 1949.

That's the opinion of Robert B. Donaldson, extension marketing specialist of the Pennsylvania State college. He spoke to the Pennsylvania Vegetable Growers association.

## 6 GERMAN WAR CRIMINALS ARE HANGED TODAY

By JAMES DEVLIN

Munich, Germany, Jan. 14 (AP)—Six German war criminals were hanged today in a resumption of executions at Landsberg prison.

Four of them were involved in the slaying of unarmed American servicemen and two in the killing of concentration camp inmates.

Five of those sent to the gallows had been recommended for clemency by a special commission headed by Texas Supreme Court Judge Gordon Simpson. Their death sentences were re-affirmed, however, by Gen. Lucius D. Clay, American military governor.

Today's hanging raised to 97 the number of war criminals executed at Landsberg since October 15. The executions, which were held eight consecutive Fridays, were stopped December 3, and not resumed until today.

**Those Executed**  
Those executed today were: Hans Engelhiedhammer, 43, German railway official, accused of helping a crowd fatally beat an American flier who landed near Munich.

Josef Ehlen, 35, and August Viehl, 49, Nenterhausen labor camp officials, accused of participating in the death of four parachuted U. S. airmen.

Hans Schneider, 30, medical sergeant accused of shooting a wounded American soldier at Statmatten, France.

Eugen Ziehrer, 43, Flossenburg concentration camp "trustee" charged with beating one inmate with a sledge hammer and killing others by forcing a water hose into their mouths.

Hans Merbach, 38, SS lieutenant, who shot inmates on a death march from Buchenwald to Dachau concentration camp. Some 5,000 began the trip and only 1,100 arrived.

## December 24 Set Liquor Sales Mark

Harrisburg, Jan. 14 (AP)—Christmas shoppers broke all single-day sales records at the state liquor stores on December 24 as the state Liquor Control board today reported purchases totaling \$3,462,404 for that date.

At the same time, the board announced the liquor monopoly sold \$209,167,944 worth of wines and spirits in 1948 with indications that profits and taxes will match last year's \$61,684,000.

The gross sales, determined from preliminary figures, closely compared with 1947's total of \$208,390,000. Both years' figures include the board's profit markup and the state's 10 per cent liquor tax. However, board sources said a breakdown of the two sources would not be available until year-end audits are completed.

## Odom Lands Safely At Oakland After Pacific Hop In Single Engine Plane

### BAD WEATHER FORCES END TO LONG TRIP

By PHILIP HIRING

San Francisco, Jan. 14 (AP)—Winter weather stopped lanky Bill Odom a continent short on a flight he had announced as a non-stop attempt from Honolulu to New York. But it didn't rob him of a new world record for light planes.

The 29-year-old flier, dapper in the grey plaid "Lucky Suit" he had worn on two record around-the-world flights, landed his 185-horsepower, single engine Beechcraft Bonanza at Oakland airport at 6:30 p. m. (Pacific Standard Time) last night.

He was 22 hours and six minutes—and 2,375 statute miles—from his Honolulu takeoff at 8:32 p. m. (PST) Wednesday.

Took 19 Hours 55 Minutes  
Official recognition of his record must await approval by the National Aeronautics association.

But the distance computed by Civil Aeronautics Authority officials is about 313 miles over the 2,061.7-mile mark set by two Russians, A. Goussarov and V. Giebov, in 1937.

Odom's record is for light personal aircraft with a motor cylinder displacement of 6.5 to 9 liters. There are three other categories, all based on engine displacement, for such planes.

He changed his course for a landfall off San Francisco, and 18 hours 55 minutes after his takeoff his "Waikiki Beech" flew over the Golden Gate bridge.

Turned Back Over Reno

Then the weather conspired against him once more. The CAA told him of clouds and icing conditions over Nevada. His little plane had no de-icers.

Odom said he "tried to pick a hole through the clouds over the mountains, but it was no go." He turned back over Reno, Nev., returning to Oakland.

Odom lamented, "I didn't have enough gas for the winds. I maybe could have reached Omaha, but not New York. (He said he had planned to land at Teterboro, N. J., outside New York, a nonstop distance of 5,285 miles.)

"I feel swell," he told newsmen.

### Describes Explosive Charge In A-Bombs

Meadville, Pa., Jan. 14 (AP)—The explosive charge of an atom bomb is no bigger than an indoor baseball, says Professor J. A. Campbell of Oberlin college.

Campbell, speaking last night at a meeting of the Erie section of the American Chemical society, said: "In spite of all the supposed secrecy about the bomb it is easy to show that the explosive charge weighs in the neighborhood of 20 to 30 pounds and occupies a sphere of three or four inches in diameter—about the size of an indoor baseball."

Campbell, who did not give the source of his information, said that new uranium and thorium sources are being discovered monthly

### JORDAN OLIVAR IS GOING TO LOYOLA

Los Angeles, Jan. 14 (AP)—Loyola university of Los Angeles has a new head football coach.

He is young Jordan Olivar, who has been mentoring at Villanova. Olivar has signed a three-year contract, it was disclosed yesterday. Terms were not revealed but sources here indicated Olivar's salary would be \$10,000 or more. He got \$5,500 at Villanova last season.

Olivar will continue the T-formation used by Bill Sargent, who resigned in the middle of last season because of his health. Olivar's

throughout the world.

"Any country with a considerable land area," he said, "is bound to have available to it sufficient stocks of fissionable at least for bomb production."

### Littlestown FINAL SERVICE IN PREACHING SERIES TONIGHT

"No Man Lives Alone" based on Romans 14:7, "None of us liveth unto himself" was the theme of Dr. Carl C. Rasmussen's fifth sermon in the preaching mission conducted by the Littlestown Ministerium on Thursday evening in St. Paul's Lutheran church. Dr. Rasmussen said: "The words of this text sound to us like a wonderful dream. With so much selfishness in the world, they sound too good to be true. But," said Dr. Rasmussen, "the Apostle Paul is not talking about an ideal. He is talking about an actual fact. The world being what it is, no man lives to himself. In the most unsuspected ways and places, we are all bound together. If this statement were true in the ancient world, it is especially true in our day. We are living in a shrinking world as a result of modern inventions."

Continuing he said, "It has been said that today, no man is safer than his world. Since this is true, no man is safer than his community."

### Acts AT ONCE to relieve NIGHT CROUPY COUGHING (CAUSED BY COLDS)

**Largest Audience So Far**  
This was the largest attended service thus far, with an estimated attendance of 600. The service was in charge of the Rev. Charles B. Rebert, secretary of the Littlestown Ministerium. Psalm 32 was the responsive reading and the Rev. Mr. Rebert read Romans 12 as the scripture lesson. Roy Hoover, church organist, and the St. Paul's choir led the congregational singing. The Alta Hummer Missionary society of St. John's Lutheran church, the boys' and girls' basketball teams of the Littlestown Junior Senior high school and Troop No. 14, Littlestown Girl Scouts of which Mrs. Ethel Helwig is the leader, attended this service in a body. Special music for the evening was

furnished by the Littlestown Men's chorus under the direction of L. Robert Snyder and Miss Shirley Hawk, serving as pianist. Twenty-six member sang a negro spiritual, "Were You There?" and "The Lost Chord." Stewart Long was soloist for both numbers and the Girls' trio consisting of Mrs. Paul Kammerer, Miss Doris Legore and Miss E. Lorraine Myers, assisted in "The Lost Chord." Dr. Rasmussen pronounced the benediction.

The sixth and final service of the preaching mission will be held tonight at 7:30 o'clock in St. Paul's church. Dr. Rasmussen's closing theme will be, "How to Make Your Church Win People." Special music will be furnished by a male quartet from St. David's Union church, York

# BACK ECONOMY RATHER THAN HIGHER TAXES

By FRANCIS M. LEMAY

Washington, Jan. 14 (AP)—Capitol Hill gave a chilly reception today to President Truman's implied suggestion that individuals making \$6,000 a year and up might pay more federal income taxes.

Economy-minded lawmakers shouted again for less spending—instead of tax increases—to balance the federal budget.

Mr. Truman asked Congress last week for \$4,000,000,000 in new taxes. He said new levies against corporations should collect most of it, but he suggested that Congress consider a tax boost on individuals in the "middle and upper" income brackets.

**Bloc Gathers Strength**  
When a reporter pressed for a definition of "middle" income the President told his news conference the treasury considers this bracket to begin at about \$6,000 a year, running up to \$25,000 or \$30,000 a year. Mr. Truman added smilingly that a man who makes \$6,000 probably would want the middle bracket to start at \$10,000.

The President also was asked about what a reporter described as the view held by President Roosevelt that \$25,000 ought to be the maximum take-home pay. He replied that he had no set views on this, but that if a man has got brains enough to know enough about the tax laws of the United States to make more than \$25,000 a year he probably is entitled to make it.

The news conference discussion of taxes came as a bi-Partisan Congressional bloc gathered strength for a battle to trim down Mr. Tru-

## Two Children Are Accident Victims

Philadelphia, Jan. 14 (AP)—A nine-year-old boy was killed by a truck and a three-year-old girl died under a train in two separate accidents in the Philadelphia area yesterday.

Police said Vincent Pares was crushed to death beneath the wheels of a truck as he was coming home from school for lunch.

In the train fatality, state police at the Langhorne barracks reported Elizabeth Ann Bumm drifted onto the tracks of the Pennsylvania railroad in the path of a Trenton-Philadelphia train.

Harrisburg, Jan. 14 (AP)—Legislation providing for the eventual freeing of Pennsylvania's 10 remaining toll bridges may be among the first bills submitted to the 1949 General Assembly.

Rep. Cannon (D-Mo.), incoming chairman of the House Appropriations committee, told the House meanwhile that he is convinced "we can make sizable and justifiable reductions" in the presidential budget. He said he has in mind particularly the proposed spending on the armed services.

## Witness Tells Of Threats To Her Life

Allentown, Pa., Jan. 14 (AP)—The

jury was expected to begin deliberation today in the murder trial of John Barnak, charged with the slaying of his wife, after receiving the charge from Judge James P. Henninger today.

Without putting Barnak on the stand, the defense rested its case yesterday.

The defense produced a surprise witness in Mrs. Elizabeth Spahr, who collapsed after testifying a Commonwealth witness told her shortly before the shooting he was "out to get Barnak."

Mrs. Spahr identified the Commonwealth witness as William F.

in a House committee in the closing hours of the session. He will renew his efforts for such an amendment at this session while at the same time offering other legislation looking toward the purchase of the spans—two of them here, two in Bethlehem and one each in Allentown, Sunbury, Clarks Ferry, Point Marion, Charleroi-Monessen and Ellwood City-Koppel.

Senator Wade sought in 1947 to amend the state constitution a second time to permit such use of motor funds but the measure died

*Hambly's Dairy Farm, North Dartmouth, Mass.*

"The night of Sept. 14, 1944, the hurricane blew down trees in our yard and other buildings were damaged, but your Tite-On Shingles stood the gaff and remained solid to the roof."

Letters like this prove that Tite-Ons live up to their name. They're specifically designed to resist the strongest gales. That's why a Tite-On roof is a profitable investment—it's trouble-free! Don't wait for howling winds to remind you that your roof needs attention—re-roof now with Tite-On shingles. Remember you get these patented features only in the genuine Tite-On Shingle, made exclusively by the Ruberoid Co.

**Concealed Interlocking** keeps Tite-Ons in place when other shingles go flying. This patented feature makes your roof permanently windproof and weatherproof. Each shingle interlocks in four places, and in addition has concealed nailing at four points. The result is a roof that's virtually "one-piece," that can't blow up or come loose!

Allentown, Pa., Jan. 14 (AP)—A

**Did You MAKE A WILL WHILE IN THE SERVICE?**

If You Did, You Should Have An Attorney Read It Immediately

Many members of the armed forces made wills that would be declared invalid by the court. Some of these wills were prepared without knowledge of the laws of the states where the service men lived. Some were witnessed by persons now missing or dead. Some were hastily made and do not express the real intentions of the maker, especially in view of changed conditions resulting from return to civil life, marriage, divorce, birth of a child, and other factors.

If you executed your will in duplicate or triplicate, it is important to locate each copy and make proper disposition of it. In some cases, a soldier's will can be denied probate because one of three copies is missing.

## ART TEACHER AND JANITOR ARE ELECTED

Meeting in special session at the conclusion of the regular monthly, individual board meetings on Wednesday evening in the Littlestown high school, the four boards comprising the Littlestown school jointure elected an art teacher, a janitor and approved purchase of lighting fixtures for the new addition to the high school building. H. Allen Walker, president of the jointure, was in charge of the meeting.

Luther W. Ritter, chairman of the teacher committee, reported that it was the recommendation of his committee that Mr. Rodney Law of Coatesville, Pa., be elected as instructor of art in the Littlestown junior senior high school at a salary of \$2,250 per year. Mr. Law is a graduate of the mid-western class of Kutztown State Teachers' college and will begin his duties on Monday, January 17. He was unanimously elected.

This committee also recommended that Ralph Unger be elected as janitor of the Junior Senior high school at a salary of \$2,100 per 12-month term, with the provision that the salary be raised to \$2,200 per 12-month term as soon as the new addition is put into use. They also recommended that Chief of Police Leon H. Gage be elected trustee officer of the jointure at a fee of 50 cents per truancy trip, plus six cents per mile traveled in carrying out these duties. The board unanimously approved these recommendations.

After a demonstration by Mr. Steringer with a model unit showing the amount of light possible with the new fixture, the jointure board voted to purchase the new "Slim-line" type of fluorescent light fixtures without louvers for all three floors of the addition at a bid of \$3,220.59. This type fixture is the most economical to operate and provides more light per watt of current than any other design, the board said.
